VOLUME FIVE

STONY PLAIN, ALBERTA, THURSDAY, OCT. 16, 1924.

WHOLE NUMBER 220

The Fireside Nights Will Soon Be Here---Let Us Demonstrate A RADIO SET

That will give You the News of the World Right at Home.

We Stock Them in One-, Two-, and Three-Tube Sets,
With Eveready "A" and "B" Batteries.

+++

A. E. MICHAEL'S,
A GOOD PLACE TO TRADE.

Radio on the Farm

The interest in Radio is well indicated by the amount of space being devoted to it by the publishers of both newspapers and magazines. In addition to the technical side of radio by different engineers, much that is practical is secured from the published accounts of the experience of those who have already installed receiving outfits.

With the establishing of broadcasting stations in each of the larger centres in the West those fortunate enough to possess radio receiving sets will enjoy a variety of entertainment as well as receive much valuable market information.

Without losing its romance, Radio has become so perfected that it is now the new and unfailing source of entertainment. It is truly the New Heart of the Home.

There is still a thrill to be got from "tuning in" the message that comes from a 1000 or 1500 miles away, but the real pleasure of radio and the thing that draws whole families night after night to the little magic mahogany box is the love for the wonderful music, the band concerts, the news of the day, the wonderful life that fills the air, and which is brought to us by the radio.

Radio sets are simple to operate, and in a way simple

What They're Saying.

Phillip says the first sign of fall is when milk begins to taste like the cows has been eating old straw hats.

Mike says the pessimist never goes where he is told until after he dies.

Ray says: "A lot of us birds would be married by now, if we could level girl long enough to get the marriage license before we seen another better L."

Calendar.

Oct. 20—Chicken Supper and lecture, Methodist Church.
23—Dentist at Royal Hotel.
24—Concert and dance, Haliborn Hall.
31—Dance, Ducholke's Hall, by Rifle Club.
Nov. 7—Luna M. D. meets.
10—Thanksgiving Day.

to make, but the real enjoyment of a fine instrument cannot be got from the ordinary home made set. The three best known companies, the Westinghouse, De Forest, and Northern Electric, who have agents in Stony Plain, make instruments that reproduce sound with all its truth and beauty as though it were in the same room with you. From their sets come the full tone and quality and the loveliest music.

Those who had the pleasure of listening in to the many concerts and got the results of the basketball and other games which came over the radio receiving outfits which Johnny Miller had installed at his Garage the past two winters will not forget the pleasure and entertainment received from what was at that time the wonder machine. Johnny is still in the radio business, as agent for the Westinghouse and the Northern Electric companies, and this week received an order for a \$265 five-tube outfit from one of his patrons.

Mr A E Michael has secured the agency for the well-known and popular De Forest Radio, and the patrons of his store have had the pleasure of listening to the noon hour to the market quotations on grain and cattle, and also later on to the live concerts on the air in the evening. The sets of this make come in a variety of patterns, from the 1-tube to the larger and costlier sets which can listen in to any broadcaster on the continent and occasionally pick up ships at sea.

LOCAL NEWS.

Mrs A E Michael and Master George are on a visit to Mrs Michael's parents at Haliborn.

Mr Chas Holling, Edmonton, paid Stony a visit on Saturday.

Mr and Mrs V Kellough made a motor trip on Sunday to friends in Edmonton.

Supt. Judd, of the Federal Grain Co., gave the local elevator a visit on Saturday.

Rev W B Farham, Wabamun, conducted services in St Oswald's Church last Sunday afternoon.

In Stony Plain, on Thursday, Oct. 9, to the wife of Mrs Gustav Zucht, a son.

The foundation was laid last week for the big addition to the Kelly General Store.

Through the courtesy of Mr Elliot, local ball fans heard the world series final game over his long-distance radio on Friday at the bank offices, up to the closing hour.

The shipments from Stony at present of potatoes and mixed vegetables average about a car a day.

While Mrs John Bauer was on her weekly rounds last Friday, collecting butter and eggs for the Edmonton market, her team bolted whilst

opposite Sundbrook Farm gates, owing to broken single-tree. Mrs Bauer was thrown from the demount and sustained a broken collarbone.

Miss Lizette Sinner drove up to the scene shortly after in her car, found the injured lady in a faint, and took her to her home, where her injuries were attended to by Dr Outway.

Mr Chas Schultz is having a hot-water heating system installed at his new home on the Government Farm. The work is being done by Anderson & Schmidt, the Stony Plain plumbing firm. Charlie intends installing an electric lighting system for the two residences and other buildings on the Farm, and has picked on the Delco Light, for which he was formerly the agent.

The Ladies' Aid are giving a chicken supper on the evening of Monday next, Oct. 20, at the Methodist Church. A good program of eats has been arranged, and the price has been set so it looks like a first-class investment. It has been arranged with the caterers the birds served will have no backs or necks, so every diner is fairly sure to have a plump leg or a piece off the bosom, on his platter at feeding time. Later in the evening a lecture will be delivered by Pastor Knight of Edmonton on a popular topic which will prove of interest to all who attend. Be there and bring your wife; if you ain't got a wife bring your sweetheart; if you have no sweetheart, bring a bit.

GET IT at HARDWICK'S.

+++

LADIES' COATS, Smart, Distinctive, at very attractive prices, \$14.75, \$16, \$19, \$21. You can see what you are buying.

MACKINAWs—We have your Mackinaw; all styles, leather lined, leather outside, or plain.

WORK GLOVES, and all Harvesters' Requirements. You are assured of the very best values.

Get it at HARDWICK'S.

CLEAN TEETH!

Can be had by using Klenzo Tooth Paste 30c and 50c, and Klenzo Liquid Antiseptic, 35c and 50c, Applied with Klenzo Tooth Brushes 35c to 75c.

I stock a good line of Sick Room Necessities, such as Cotton, Bandages, Adhesive Tape, Bed Pans, Elastic Bandages, Abdominal Belts, Fountain Syringes, Hot Water Bottles, Rubber Sheeting, Invalid Drinking Cups, Oil Silk, etc. A fresh supply of Willard's Chocolates just received.

J. F. CLARKE, THE REXALL STORE
STONY PLAIN, ALBERTA.

GET READY for WINTER

You Must Keep Warm so Consider one of the Following Lines—

**Pipe or Pipeless Furnaces,
Brick-lined Quebec and Oak
Coal Heaters,
Cast-iron and Air Tight
Wood Heaters.**

A Good Range will also heat well, saves fuel, and makes cooking and baking a pleasure.

This stock is selected for being most suitable for this district, and the best value offered by all the manufacturers of the various lines.

Don't Forget We Have All Sizes Stovepipes, Tees, Elbows, Coal Scuttles and Coal Shovels, at

Oppertshauser's.

CHICKEN SUPPER

And LECTURE AFTERWARD,
MONDAY, OCTOBER 20, 1924.

At the Methodist Church. All Are Welcome.

MENU—Roast Chicken, Mashed Potatoes, Vegetables, Salads, Tea, Coffee, Dessert.

Adults 50c a plate. Children under 12 years 25c.

ROSE

For particular people—
Roasted and packed same
day in airtight cans

The War To End War

How often during the fatal years 1914 to 1918, while the colossal struggle between Germany and the Allies was in progress was heard the expression that this was a war to end war. This idea was embodied in the appeals made by all Allied Governments to their people to loyalty and even cheerfully bear the heavy burdens being imposed upon them and to endure the terrible sacrifices they were called upon to make. Thousands of husbands and fathers fought and suffered and died, declaring it was worth while if by such sacrifice the world of mankind was to be forever freed from the horrors of war. "Never again" was the watchword of these heroic souls as, dying, they felt assured their descendants would never be called upon to face what they had endured.

But although the bugles sounded "Cease fire" along the great battle line on November 11, 1918, the war to end war was not then concluded. It is not yet concluded. Wars are even now in progress in different parts of the world, but more significant than these local struggles is the fact that, even with the elimination of Russia, the European Allies in the Great World War have a larger number of men under arms today than Germany, Austria-Hungary, Turkey and Bulgaria had when the Great War began in 1914.

Today the peace strength of France, Italy, Britain, Poland, Rumania, Belgium, Czechoslovakia and Yugoslavia is 1,537,000 men, while in 1914 the peace strength of Germany, Austria-Hungary, Bulgaria and Turkey was 1,504,999, or nearly half a million less.

The financial burden imposed on these war-impoised countries in maintaining nearly two million men in military readiness is an appalling one. Important advances have been made in reduction in naval armaments, and it is probable that more will follow, but as yet the even greater menace to the peace of the world constituted by huge standing armies exists.

The whole race of mankind must rejoice, therefore, that the League of Nations is leaving no stone unturned to bring about, first, a binding agreement among all nations calculated to make war almost impossible of outbreak and banish it from among the calculations which today every European country has to consider, and, secondly, to bring about an early and drastic reduction in all standing armies and armaments along lines which are proving effective in the reduction of navies and naval expenditures.

Some people still scoff at the League of Nations. They criticize and condemn it because it has not accomplished more. Yet when its achievements in the six years which have elapsed since the Covenant was drafted and signed are studied, the amazing thing is not what it has failed to do in that short space of time, but that it has accomplished so much, and has secured such a large measure of confidence among the nations of the world. The influence of the League of Nations is the most powerful factor in international affairs today.

Beneficial and effective in so many ways as the work of the League has proven to be, its recent achievement in drafting a protocol of peace which received the unanimous approval of the representatives of every nation now a member of the League, and the equally unanimous approval given by such representatives to the plan for a great world conference on disarmament, and their united demand upon all Governments to proceed with the least possible delay in giving individual Parliamentary approval to the peace protocol, is easily the most important and far-reaching effort of the League and one that holds promise of heralding a new era in world history.

The effect of the concord displayed at Geneva is seen in the speeches delivered by two generals who were active participants in the Great War, one a German, the other a Frenchman. General Vieux (French) and General Von Schoenbach (German) united in stating to the World Peace Congress at Berlin that "only complete general disarmament can save the world." General Vieux declared that "little armies are as dangerous as big ones," and General Von Schoenbach said that most generals of the old regime knew that their theories were wrong, but had not the courage to confess it. He promised to support the movement looking to the abandonment of military service.

The war to end war is, therefore, moving forward to victory. This really glorious war is not yet won. To achieve complete victory calls for the enlistment of every right-thinking man and woman to bring the last ounce of pressure to bear on Government in each and every country in order that strong national support for the League of Nations plan for universal disarmament will be forthcoming.

Canada's Envious Position

"I confidently predict that the next ten years will be the most prosperous in Canada's history," declared the Hon. P. C. Larkin, High Commissioner for Canada in London. "Without doubt Canada is in a far better position today than any other country in the world."

Road Reserved For Motors

King Victor Emmanuel, of Italy, opened what is believed to be the first road in the world built and reserved exclusively for automobile traffic. The road extends for thirty miles from Milan to the Lake of Varese and is to be continued later to Lakes Maggiore and Como.

Children Cry for

**Fletcher's
CASTORIA**

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Hope For Cancer Cure

Toronto May Achieve Another Triumph in a Curative Treatment. Sir David Ferrier, a well-known practicing physician, formerly consulting physician to King's College Hospital, and to the National Hospital for the Paralyzed and Epileptic, in an address to the Hospital Medical School, London, on the problem of a cure for cancer, referred to Dr. F. G. Banting's discovery of the insulin treatment for diabetes and said that hopes had been raised that Toronto would achieve another magnificent triumph in the discovery of a curative cancer treatment. However, British hopes, in the latter regard, have not yet been fulfilled.

The medical profession need not despair, Sir David said, about a cancer cure being discovered, for some time, but the members of the profession should not be over-optimistic concerning investigations now being carried on in connection with a possible cure.

Sir Humphrey Rolleston, president of the Royal College of Physicians, of London, urged that there should be one physician to every 1,000 people. He regretted that the entrance to the medical profession had fallen off considerably of late. This was especially the case with regard to women entering the profession.

Take Your Corns Off In Hot Foot Bath

The hot water removal of corns is the surest, quickest and easiest. It takes only a minute to apply a covering of Putnam's Corn Extractor, and it soon dissolves the corn or so that the hot foot bath shells them right off. Get Putnam's Corn Extractor; it's a sure cure for corns and calluses. It costs little and is absolutely sure to give you the desired results for corns, thickened foot molds or sore callouses.

PUTNAM'S Corn Extractor

Port of Vancouver

Six hundred and eighty-seven deep sea vessels called out of Vancouver during the first eight months of the present year.

WORK WORN PEOPLE

Find Renewed Health By Improving Their Blood.

If you feel down, it means that your blood is thin and watery, that your vitality is low. Your feet are easily chilled. You do not get on your feet and you are tired when you rise in the morning. You find no pleasure in your meals and are listless and dispirited at your work. You have no energy to enjoy yourself.

Thousands of run-down people, of both sexes, are broken down by their household toil, in their work and in their backs; thousands of girls are pale, listless and without attraction. It all means the same thing—thin and watery blood, vitality run-down, anemia, poor appetite, palpitating heart, short breath.

Do not submit to this. Get new blood and with it new vitality. There is a difference between the Dr. Williams' Pink Pills build up and enrich the blood, which brings with it new health and vitality. The man, woman or girl who takes Dr. Williams' Pink Pills is never run-down. Their friends notice how energetic they are, what a fine appetite they have, and how much they enjoy life.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Supreme in Cheese

Canadian Product Has Attained a High Degree of Popularity.

"Cheese—And Ways to Serve It," is the title of a beautifully illustrated booklet which contains nearly a hundred tested recipes for tempting cheese dishes. This book can be obtained absolutely free by writing to the Kraft-MacLaren Cheese Co., Limited, Montreal. Cut out the coupon appearing in advertisement inserted elsewhere in this issue, write your name and address plainly, and the booklet will be mailed to you at once. Cheese is nature's complete food in its most tempting form. Kraft cheese is an appetizing, satisfying and most nourishing food, and can be served in scores of tempting dishes.

Not Worth the Risk

"I know that I am not good enough for you," he told her. "I don't intend to give you a chance to prove it," she replied.

Minard's Liniment for Aches and Pains.

W. N. U. 1646

BIG BEN

CHEWING TOBACCO

The Airtight Tins insure BIG BEN being in the same perfect condition, when you buy it, as when the tobacco left the factory.

15¢ per plug

You always have a nice fresh plug on hand—and the empty tins are useful, too.

Scientists Make Strange Discovery

Expedition into Olympic Mountains—Find Worms That Live In Ice.

A species of worm that lives only in ice and cannot withstand even the heat of a human hand, has been found and photographed by a scientific expedition that recently went into the Olympic mountains.

The ice on Doddwell-Ritson Pass in the Olympics was found literally alive with these worms. They are black, thin and about half an inch long. When the sun is out they crawl into the interior of the ice where the temperature is lower. Scientists with the party said that so far as they knew these worms never had been found before in the United States.

While the worms were photographed, it was impossible to get any of them out of the mountains alive. When the ice surrounding them begins to melt, they die immediately. What they live on is still a mystery.

Good-bye Asthma. Persons suffering from that extremely trying trouble known as asthma know what it is to long with all their hearts for escape from a tyrant. Never do they know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Kellogg's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Okanagan Fruit

The total number of cars of fruit and vegetables shipped out of the Okanagan Valley during the period June 1st to August 31st, was 792, as against 536 during the same period a year ago.

The Oil for the Farmer.—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but they are directions for its use on sick cattle. There should always be a bottle of it in the house.

Images Date Back To 500 B.C.

In Ireland they find the more of the mysterious porcelain images of ages which have been dug up over there, 50 found since year 1780, in widely scattered places.

Chinese scholars claim these porcelain images are of Chinese origin, including their peculiar hieroglyphics, and date back to the year 500 B.C. How did they get to Ireland? Did Chinese explorers travel that far. The ancient history of China, as it comes to light, will be fascinating.

Woman's Rights In Japan

Advocates of women's rights in Japan are advancing, as proof of the women's increasing interest in political affairs, the fact that of 14,000 persons who occupied seats in the visitors' galleries of the two houses in the Diet during its extraordinary session, in August, 4,000 were women. No previous session of the Diet had had so many women visitors.

Was Troubled With Her Heart and Nerves For Years

Mrs. James Rutledge, Napian Station, N. S., writes:—"I think it my duty to tell you what Milburn's Heart and Nerve Pills have done for me."

For years I was troubled with my heart and nerves, and was so bad, at times, I would faint away and fall right down where I was sitting or standing, and after one of these attacks I would sometimes be in bed for weeks at a time and feeling that life was not worth living.

I finally started the use of MILBURN'S HEART AND NERVE PILLS

and after using the first box I saw I was getting relief, and after using them for a short time I found that they did for me what no other remedy had ever done."

Milburn's H. & N. Pills are for sale at all druggists and dealers; put up only by The T. Milburn Co., Limited, Toronto, Ont.

German Car Worries Pedestrians

Automobile manufacturers in Germany have great affection for freak designs in cars. One of the latest monstrosities to appear on the streets of Berlin is a car with the engine in the rear, and so constructed that the front end of the car bears the appearance of the rear end of an ordinary car. The vehicle appears to be running the wrong end first.

Rheumatism

Apply Minard's to the aching spot and get quick relief. The remedy your grandmother used.

Children love it

—and it is so mild, so digestible that you can serve it in scores of tempting nourishing dishes good for little folks. Dr. Gruen, noted food expert, says: "Kraft cheese is a baby's food. It contains the vitamins that give strength and growth."

Tar Sands Of Alberta May Be Solution Of Good Roads In Prairie Provinces

Alberta's tar sands for prairie roads; that is the objective to which a great many people are working at the present time. Alberta has the tar sands and there are thousands of miles of prairie roads that need the addition of some substance that will keep them passable in all kinds of weather.

Thomas Draper, of Fort Hinton, Mich., is the man who probably knows more about the extent and the value of the bituminous sands of Northern Alberta, than anyone else with the exception of Dr. S. C. Ellis, of the Federal Government Geological Service, says the Manitoba Free Press.

Mr. Draper has travelled the north country on horseback, on foot and by boat along the various rivers which intersect the tar sands. He has examined outcroppings wherever they could be found. He has prospected in many places to ascertain depth of overburden, etc. He has spent years in experimental work and has acquired a wide knowledge of the district and the subject. "An oil man to begin with, he first viewed the tar sands solely from the oil extraction point of view and from that angle he is convinced today that Alberta contains the greatest oil reserve in the known world.

An idea of the extent of this oil reserve may be gleaned from the fact that according to Mr. Draper the tar sands extend from east to west, a distance of 400 miles and up and down the Athabasca River for 165 miles, from Hoffer Rapids to 55 miles below Fort McMurray. Actual work accomplished gives returns of about 240,000 tons per square mile and a barrel of oil can be extracted from each ton.

Two distinct processes have been evolved for operation on the tar sands. The first process is the distillation of oil from the sands while the second process is the separation of all the hydrocarbons from the sand. The first process gives a recovery of 16 per cent, made up of five per cent gasoline, three per cent kerosene, 12 per cent light gas oil, 15 per cent medium gas oil, 42 per cent lubricating products and 20 per cent pure asphalt. The second process gives a recovery of 28 per cent, including all of the products mentioned in the first process.

Extensive paving tests have been carried on extending over a number of years, in fact ever since 1911, in Edmonton, Calgary and other Alberta towns. Some of these roads have been required to carry exceedingly heavy traffic, but the pavement has shown itself equal to the test and has cost practically nothing for repairs.

Mr. Draper points out that by reason of its extreme facility of use it will prove of great benefit to farmers. It does not require skilled labor. It can be mixed in equal proportions with crushed stone, gravel, or almost any material available and will then make a floor which will withstand winter cold and summer heat. It can, in fact, be mixed with ordinary clay, and experiments along this line have resulted in a pavement that could not be distinguished from the paving material mixed with gravel. It can be applied in thin thick to a hard road surface and give excellent results.

"The Alberta tar sands have still another point in their favor which adds tremendously to their value," said Mr. Draper. "With a slight change in the explosive engines now using gasoline, vegetable alcohol can be produced in immense quantities and can be used as a substitute for gasoline, but there is no known substance to replace lubricating oil and in the bituminous sands of Northern Alberta there is stored an immense amount of oil suitable for lubricating purposes of a better quality than any yet discovered elsewhere in the world. It has been tested out and found excellent in cold weather, lubricating equally well at 50 degrees below zero as in a moderate temperature. As a fuel oil also it has been found to compare favorably with any oil in the world."

"I don't think," continued Mr. Draper, "that many people can realize the immensity of this oil and gas reserve owned by Canada. Looking at it from the oil man's viewpoint, it contains none of the hazards of drilling for oil. Geological formations may be right

and lead one to anticipate finding oil, but had experience has proved how often these conditions lead the oil man astray and after spending thousands of dollars his well does not produce any oil. Here in Northern Alberta, getting richer as one goes deeper into it, is the oil strata itself lying practically on the surface. There is no guess-work about it. It becomes a manufacturing business. One can estimate exactly the returns and the cost."

As a matter of fact it has been the separation of oil from the sand that held up development in the past so far as the oil business is concerned, while difficulties of transportation and lack of mining machinery have militated against the use of the sands as a paying material. Two of these problems are solved now and the transportation difficulty is in a fair way to be overcome. Machinery has already been installed on one large property for the mining of the tar sands for paving purposes and it seems likely that it will shortly become available to the prairie provinces as a road-building material.

Canadian Wheat In Britain

Climatic Conditions Seem to Militate Against the Wheat Grower in England

British farmers are coming to realize that climatic conditions are against them, and in favor of the farmers of Canada, in the growing of wheat of the finest milling variety. The National Farmer's Union stated a few days ago: "We British farmers are often asked why we cannot grow wheat as good and as cheap as the Canadian farmer. We can grow better and cheaper wheat but we cannot fight the vagaries of the British climate, which does not always give our grain the quality that pleases the millers."

This outspoken declaration was part of a protest, uttered by the Union against a circular issued by a great milling concern in England, which said that under no circumstances would the millers use English wheat, so that bakers might be certain of receiving flour of the very finest quality. Ordinary prudence would suggest to the British farmers the uselessness of fighting against the climate, weather being beyond mortal control, and the wisdom of accepting conditions as they are acknowledged to exist.

If the country is not adapted to the growing of the hard wheat millers, bakers and bread consumers require, would it not be wise to grow such crops as can be raised to good advantage, perhaps roots, tobacco, grain and coarse grains for instance. "Painfully Herald and Weekly Star.

Saskatchewan Turkeys

Good Market in the East for Surplus Stock

Eastern produce houses desire to place repeat orders for Saskatchewan turkeys, according to letters reaching the Provincial Department of Agriculture.

Following a cold, wet hatching season, the turkey crop in the province is smaller than it would have been under better conditions, but Hon. C. M. Hamilton, Minister of Agriculture, says encouraging reports have been received from several districts by the Markets and Co-operation Branch of this Department.

"Present indications are the operation of the pooling plan for dressed and live turkeys will result in a considerable increase in the number of turkeys shipped on a co-operative basis this year," said Mr. Hamilton. "It seems likely prices will be higher than they were last year owing to diminished flocks."

Has Much To Boast About

Canada is said to have more railway mileage in proportion to population than any other country in the world. "And Canada has more country in proportion to population than most countries." Canada has also several other things to be proud about. It has, perhaps, Canada will be able to boast about the population it has in proportion to territory. Meantime, Canada is doing fairly well and is an excellent country to live in for those who like to live for the sake of living well and sanely. "Stratford Beacon Herald.

Crop Yields Are Beyond the Average

Cash Return From Wheat Crop May Reach \$390,000,000

A sanguine view of conditions in the west is taken by the Advertising Promotion Department of the Canadian Daily Newspapers' Association.

It quotes the Dominion Government's estimate for the 1924 crop, which is 280,000,000 bushels, and mentions the fact that this harvest has been exceeded only three times in the history of the Dominion.

If values as well as quantities are taken into account the showing this year should be even better. "The greater part of the crop of 1922 was sold at between \$1.00 and \$1.11 a bushel, the Winnipeg price for No. 1 Northern, while last year the Winnipeg price averaged about \$1.00.

The cash return for the entire wheat crop of 1924 is expected easily to reach \$390,000,000, of which the greater part will go to the Prairie Provinces. Much of the wheat will be sold through the pools, with corresponding increase in revenue to the farmers. The pools fixed \$1.00 as the preliminary payment this year, whereas the average last payment last year was \$1.11.

The present trend of the market indicates that the price for 1924 wheat will be higher by a considerable percentage than was realized for the 1923 crop; and, in addition to this, harvesting costs will be lower, so that the farmer who has a fair yield of wheat may expect to have a comfortable surplus.

A canvas of business men through the prairie and western districts undertaken by a Montreal financial paper, including wholesalers, jobbers and retailers dealing in the principal commodities, resulted in a general report that business is fairly good and that a brisk fall trade is anticipated.

The lesson for the local merchant is to push for business with every means at his disposal from now on. "Business is there for those who merit it," for the "Go-Getters."—Moose Jaw Times.

Only Few Engage In Dairying

In spite of the rapid development of dairying in Saskatchewan, there are still not more than twenty-five per cent. of the farmers of the province who are creamery patrons.

Hop Of Livestock Industry Is To Seek Wider Markets For Profitable Future Trade

In Charge of Experimental Farm

Gibson Again Superintendent Indian Head Dominion Farm

E. S. Archibald, Director-General of Experimental Farms for Canada, has announced the appointment of William Gibson, as superintendent of the Dominion Experimental Farm at Indian Head. Mr. Gibson was in charge of this farm some years ago, when it made great strides in dairy farming and in breeding and developing Clydesdale horses. It was during Mr. Gibson's regime that he discovered and developed the famous team, Donald and Sandy, now owned by McDonald & Shee, and which have brought such glory to both Saskatchewan and Manitoba, from eastern and southern show rings.

Mr. Gibson resigned to go into a farming partnership with E. E. Fuller, of Glirvin, Sask., and later went farming for himself near Indian Head, but has now agreed to accept the superintendency of the Indian Head farm once more, a decision which will give great satisfaction to breeders throughout Saskatchewan.

Stock Going West

Considerable Movement of Livestock From Alberta to Vancouver.

During the past eight months three hundred and fifty carloads of livestock have been shipped from or through Edmonton to Vancouver. This is the first considerable movement of stock westwards from this part of the province and indicates that the western route is of growing importance as an outlet for farm products other than grain. The development is of particular interest in view of the possible creation of a market for Alberta-grown beef in Japan. If the demand on the coast, on either side of the international boundary, is sufficient to cause buyers there to call heavily on the Alberta stock growers, the latter may with reason look to better times should any notable demand come from the Orient.—The Edmonton Bulletin.

Canadian Old-Timers Visit London

Colonel George Hunt, of the Canadian Pacific, who recently celebrated his 74th birthday, and Colonel James Walker, of Calgary, Western veterans of 75, photographed together in Trafalgar Square, London.

Colonel Walker, who returned to Canada on the Canadian Pacific S.S. Montevideo this week, was one of the first members of the Royal Northwest Mounted Police. He can recall the romantic beginning of the force which made the settlement of Western Canada possible, and his first trip across country with 1874, when there was not more than a hundred white men living west of Winnipeg. He has been connected with the Canadian Militia since 1866.

After the various vicissitudes experienced of recent years, and the being buffeted between the United States and British markets according to the vagaries of tariffs and embargoes, Canadian livestock producers would seem to have reached a realization that it is a poor policy to remain dependent upon a single source for the disposal of their produce, and are seeking a remedy for periodically recurring ill in a wider expansion of markets. In this movement to go farther afield in the vending of their products, which is markedly evident at the present time, may be foreshadowed brighter and more stable times for Canadian livestock producers.

In the first six months of 1924 Canada exported 32,179 cattle to Great Britain and 40,953 to the United States, as compared with 20,029 head to Great Britain and 25,659 head to the United States in the same period of 1923. The total shows an increase amounting to 18,991 in favor of the present year, an increase of 35 per cent. The number of livestock marketed in England and Wales during the first 26 weeks of the year amounted to 39,148 fat cattle and 95,934 store as compared with 163,867 fat cattle and 234,804 offered during the corresponding period of last year.

In addition to their own exports there were exported 10,335,540 pounds of beef, of which 2,314,000 pounds went to Great Britain and 6,307,500 went to the United States; 51,500,300 pounds of bacon, of which 56,294,400 pounds went to Great Britain and 235,000 to the United States; 1,682,100 pounds of pork, of which 2,325,800 pounds went to Great Britain and 638,600 pounds to the United States; and 75,300 pounds of mutton, of which 20,490 pounds went to the United States.

Some progress has been made in the co-operative marketing of livestock and the year ending in June of the operation of the co-operative cattle pool of the United Grain Growers, Ltd., was a successful one from the standpoint of the producer. For the twelve months the profits of the cattle pool amounted to \$30,570, which made possible a distribution of one per cent on the value of their cattle to be paid to shippers in addition to the full market value which they had already received. Since the pool was inaugurated in February, 1923, it has sold more than 100,000 head of cattle with a value of \$5,200,000.

Western Canada, particularly the province of Alberta, has become very interested in endeavoring to develop new markets for its livestock, and in this connection shipments have been made to Japan, Belgium and to California. The Grande Prairie and Peace River country have been turning a large number of winter-fed cattle for the Old Country markets, and shipments of carefully selected cattle have moved from Central and Northern Alberta with a successful outcome which would seem to augur a profitable future trade.

The Alberta Government's experimental shipment of beef cattle to Japan is especially significant. Japanese livestock dealers came from all over the country to view the stock, and were well pleased with the cattle and particularly satisfied with the beef. They are anxious to have another shipment made as soon as possible, and it is believed there is possibility of a voluminous and profitable trade developing in this connection between Western Canada and Japan.

Alberta Sugar Refinery

Proposed Sugar Beet Plant to be an Erected in Southern Part of Province

Considerable interest has been aroused among farmers of the Lethbridge district in the proposed sugar plant of the Utah Idaho Sugar Company. The representatives of the company have made a survey of the experimental plots of beets in the northern part of the province, and state they are well satisfied with the results. It is well known for some little time whether the sugar plant will be built at Lethbridge or some other location.

The young gentleman who seeks a situation, as he is to succeed as the young man who hustles for a job.

BRITAIN'S LABOR GOVERNMENT IS NEARING FINISH

London.—Great Britain's first Labor Government virtually came to an end when, by a combination of Conservative and Liberal votes, the House of Commons carried a motion demanding that a select committee of the House investigate the action of the Attorney-General, Sir Patrick Hastings, in withdrawing prosecution in the case of the Communist, James R. Campbell, acting editor of the Workers' Weekly, charged with inciting His Majesty's forces to sedition.

The Government declined to accept the motion, and treated it as a vote of censure, which, if adopted by the House, would involve an appeal to the country against Parliament's verdict.

The debate was sharp and exciting, and after it was closed the opposition wanted to elect Sir Robert Horn's motion of censure and vote on Sir John A. Simon's amendment calling for an investigation. On the Government's refusal to accept the motion, the House divided on the question as to which it should vote on. By a vote of 159 to 135, it decided to vote on the Simon amendment. This was equivalent to the defeat of the censure motion, and the Simon amendment became the substantive motion, and was carried, 364 to 181. Announcement of the figures was received with loud cheering and counter-cheering. The Prime Minister, Ramsay MacDonald, immediately arose and said: "In view of what has happened, Mr. Speaker, I move that the House now adjourn."

Agreement Not Possible

British Government Cannot Grant Demands Made by Egypt

London.—A letter written by Premier MacDonald, declaring that the attitude adopted by Said Zagloul Pasha, the Egyptian Premier, has rendered impossible for the moment an agreement between the British and Egyptian Governments on the questions left for eventual settlement, when the British protectorate was withdrawn in 1922, has been issued by the Foreign Office in the form of a white paper.

The letter is addressed to the British High Commissioner for Egypt and the Sudan. It says that pending some future agreement between the two countries, the duty of preserving order in the Sudan rests upon His Majesty's Government. "And," the premier adds, "they will take every step necessary for this purpose."

Said Zagloul Pasha makes five demands for modifications in Egyptian status quo namely: withdrawal of all British forces from Egyptian territory; withdrawal of the financial and judicial advisors; disappearance of all British control over the Egyptian Government, notably in connection with foreign relations; abandonment by the British Government of their claim to protect foreigners and minorities in Egypt, and abandonment by the British of their claim to share, in any way, in protecting the Suez Canal.

Fred Welers, a Humboldt district farmer, has thrashed a field of wheat which yielded 45 bushels to the acre and weighed 55 pounds to the bushel.

Keep The Hair Live And Gloss With Cuticura

On retiring, gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with a soda of Cuticura Soap and hot water. This treatment does much to keep the scalp clean and healthy and promote hair growth.

Small Size 25c. Full Size 50c. Address: Cuticura, Boston, U.S.A. Sold Everywhere.

W. N. U. 1546

Says British Race Is Not Decadent

Toronto.—Refuting statements that the British race was decadent, Rt. Hon. H. A. E. Fisher, former British Minister of Education, in an address here, made prophecies of a civilization in Canada distinct from that of the United States or England but embodying all the best elements of the two. Mr. Fisher said he thought that the political system of Canada, derived from Great Britain, had advantages over that of the United States and stated that the legal system of the British was a matter of pride.

Settle War Claims

Adjustment Made Between Canada and Germany Over Claims Covering Large Amounts

Ottawa.—All of the smaller outstanding claims of Canada against Germany, and of Germany against Canada, have been adjusted as a result of negotiations carried on at Berlin by Sir Frank Mulvey, Under-Secretary of State, who lately has been assisted by Hon. Raoul Dandurand. The Government here has approved the settlement arrived at. The amounts involved aggregate nearly a million dollars.

The adjustment reached is in the nature of a saw-off. The Canadian Department of States will take care of the Canadian claimants against Germany, and the German Government will take care of the German claimants against Canada. The purpose of the settlement is to clear the hands of the Canadian Government of alien enemy properties, while Germany will attend to similar claimants in her territory.

By the settlement arrived at, all smaller claims have been wiped on the books. They are mostly commercial accounts. Only the larger ones remain. The total claims are 1,331,000. Canadian claims against Germany are 1,331,000. German claims against Canada are 1,331,000.

Rapid progress is being made in the adjustment of the whole situation. The cases which Mr. Mulvey is dealing with are quite distinct from those in which reparations are sought from Germany by reason of illegitimate methods of warfare. These have been the subject of investigation by the commissioner, Hon. William Hughes, who has just completed a number of hearings in the Maritime Provinces.

German Loan

Practically Assured

Successful Flotation Is Now Viewed As a Certainty

Berlin.—British, United States and continental participation in the \$200,000,000 Dawes plan loan to Germany, to an extent which will definitely insure its successful flotation, is now viewed as a certainty in German official circles where the progress of the London negotiations has stimulated a pronounced feeling of optimism. Chancellor Marx says the common people see in the loan a means of stabilizing Germany's finances, while its future on the other hand would be bound to have a far-reaching effect on the entire situation, and might even mean the collapse of the Dawes plan.

Japan Reserves Decision

Tokyo.—Japan will not decide its attitude toward the protocol of Arbitration and security voted by the League of Nations at Geneva, until after the November presidential elections in the U.S. and the British political situation is settled. Baron Shidehara, Foreign Minister, told the Privy Council.

The outcome of the political situation in the United States and Great Britain will be leading factors in the Japanese decision, it was declared.

General Booth Arrives

New York.—General Bramwell Booth, head of the Salvation Army, with headquarters in London, arrived on the Homeric on his way to Canada, where he will conduct the annual congresses in Toronto and Winnipeg. He said he had a heavy programme before him, as he will conduct 36 meetings.

Imperial Conference Postponed

London.—The proposed imperial conference in London this fall is now definitely postponed, no matter what happens in connection with the British political situation, the Canadian Press releases authoritatively.

Wins Scholarship

GABRIEL A. GIBSON, winner of the Province of Quebec Scholarship for Music, known as the "Paris Prize," which entitles him to three years' study in Paris, photographed aboard the Canadian Pacific S.S. Minnedosa, bound for Europe. The award of the scholarship to Mr. Gibson was not considered extraordinary by those who know his command of the piano, but it is remarkable that one who has been blind since birth should have qualified for the distinction. Mr. Gibson travelled alone under the care of the Canadian Pacific officials, and has taken residence with the Institute National for the Blind, where he will stay during his studies in Paris.

Air Defence For Australia

Many Applications To Join Citizens' Unit Are Expected

London.—The London Daily Telegraph Sydney correspondent cables that Wing Commander Goble, chief of the Australian air staff, in giving evidence before the Federal Public Works committee on the proposed air force station at Richmond, New South Wales, said Sydney was one of the most important and strategic centres in the Commonwealth and that steps should be taken without delay for its defence. The proposed plan of air defence is spread over seven years, and provides for the formation of air units as the permanent nucleus of one-third the total strength, the two-thirds being drawn from citizen forces.

It is expected there will be many applications to join the citizen air force.

Souvenir Hunters Enter Peace Palace

Presidential Hammer Has Been Stolen

The Hague.—Even the hallowed precincts of Andrew Carnegie's Peace Palace are not safe from the depredations of souvenir hunters, it seems, for it has been known that the presidential hammer has been stolen from the council table of the permanent court of international justice.

The hammer is artistically carved of ebony and about 12 inches long. It was presented to the court by the senate of Leyden University in 1922. It has been missing since August 26, and information leading to its recovery is requested by The Hague Chief of Police.

Western Horses For Russia

Winnipeg.—Shipment of 1,000 horses, purchased in Western Canada for the Soviet Government of Russia, probably will commence in two weeks' time, according to Edward Kealey, of Kealey Springs, Sask., during an interview here.

Postpone Round Table Empire Conference

Ottawa.—Postponement of the round table conference, as announced in London, had been expected in official circles here. The present month was tentatively suggested for the holding of the conference, but there were difficulties in the way, especially so far as the more distant Dominions were concerned. Furthermore, with the present crisis in the domestic politics of Great Britain, it was thought unlikely the MacDonald Government would care to proceed with the conference.

Mr. Beatty Favors Exhibition Train

President of Canadian Pacific Agrees On Necessity For British Publicity

Commenting on the interview with M. Laurey, Director of the College Des Hautes Etudes Commerciales, published in The Gazette, regarding the proposed operation throughout the British Isles of a Canadian motor train similar to that operated in France by the Canadian Government and railways last year, Mr. E. W. Beatty, K.C., President of the Canadian Pacific Railway, expressed sympathy with the project, and stated that if the Canadian Pacific was approached by the Government to co-operate in such a scheme, he would be willing to recommend it and assist it to a reasonable extent.

"We all appreciate, I think," said Mr. Beatty, "that anything that can be done to stimulate the right class of immigrants from Great Britain, will be a step in the right direction." British immigration, while showing an improvement over last year, is yet disappointing, and while the Government, the Canadian Pacific and the Canadian National have been, and are doing all it is possible to do, yet I am fully aware that many more districts, especially in the northern portions of Scotland and Ireland, where little is known about the opportunities for agriculturists in this country, on a small scale, with one exhibition van, we have been covering parts of England for years, but so thickly are the towns and villages located, and so great the population that it has been practically impossible to reach other than a small portion of the people.

"The British Empire Exposition which closes this month at Wembley, has brought Canada prominently before all those who had the good fortune to attend it as well as to many through the medium of the daily and weekly press, but only a very small proportion of the population—that is the class of people whom we desire to interest—either visited the exposition or were reached through the British press."

"I do not favor the operation of a full train of 30 motor vans, as was done in France, but rather the operation of eight to ten exhibition vans throughout Canada's natural resources and agricultural products as well as an apparatus to enable a daily projection of motor picture films in the open air. Our exhibit at Wembley Exposition were productive of general publicity, but the operation of a motor train as suggested, would bring Canada in direct touch with millions of people. In the towns and villages of France, I understand, everybody turned out; it was a free exhibition and entertainment and naturally drew the public. During the past summer, our own exhibition van covered nearly 2,500 miles in Southern, Central and Northern England, visited 185 cities, towns and villages, and attended 19 agricultural shows. It began to operate early in May, and continued until the end of August.

"What we have been able to do with good results, on a small scale," continued Mr. Beatty, "should be productive of greater results on a large scale, and, in the modified form I have suggested, I am inclined to favor the project."

Treaty To Be Proclaimed

Ottawa.—Canada's trade treaty with Australia will come into effect by proclamation on a date to be decided by the two Governments. Further details available show that the chief concessions obtained by Canada in the Australian market are on canned fish, paper and cheese. On canned fish Canada gets the British preferential rate of a penny per pound, as against an intermediate tariff of 1½¢, and a general tariff of 2½¢.

LOW GRADING OF WHEAT CAUSE FOR COMPLAINT

Regina.—A request for an immediate investigation of the whole question of grading wheat was referred to the Board of Grain Commissioners at Fort William by the Saskatchewan Wheat Pool.

The telegram sent to the Board of Grain Commissioners from the meeting of the Wheat Pool directors reads as follows: "In view of extreme dissatisfaction and large number of complaints being made by farmers regarding grading of wheat by inspection department, Board of Directors of the Saskatchewan Wheat Pool recommend that an immediate investigation into the whole matter of grading should be made without delay."

The question of grading was discussed at an informal conference between directors of the pool, the Central Board of the Saskatchewan Grain Growers' Association and representatives of the Farmers' Union of Canada. Donald MacIver, general manager of the pool, spoke on various phases of grading and a general discussion followed, the meeting lasting over two hours.

Calgary.—Protesting that the standard by which wheat has been graded has been arbitrarily raised to a higher level than last year, although the Grain Standards Board itself has not yet met, and that, in consequence, the producers are suffering a very heavy loss, more than 100 farmers of the Calgary district, south of here, have made an urgent request to Hon. T. A. Low-McCormack, Minister of Commerce, and to the Board of Grain Commissioners, to give the matter their immediate attention.

Aerial Mail For East

Daily Service Established Between Halleybury, Ont., and Quebec

Ottawa.—A daily mail service by airplane has been established between Halleybury, Ont., and Angliers, Que., and the Roney Gold Fields, according to an announcement in the October supplement of the official Postal Guide. The service is being maintained by the Laurentide Air Service, Limited, and renders of mail almost all risk.

The requirements for this mail are:

1. "By aerial mail," must be written prominently on the address side.
2. The usual Canadian postage must be affixed.

An special aerial sticker sold by the company or its agents, representing a charge of 25 cents, must be placed on the reverse side of mail matter in payment of the special charges for transmission by air.

May Appoint Dr. Tory

Ottawa.—Dr. H. M. Tory, President of Alberta University, is expected to be the permanent head of the Research Council of Canada, when the reorganization of the office is completed. At the last session of Parliament, legislation was passed to put the council on a more independent basis, and to enable it to work out gradually a system of investigation such as is being carried on by the American Bureau of Standards.

Population Of Edmonton

Edmonton.—Completion of the civic census showing that Edmonton's population has increased, to 52,160, probably places the capital city in the lead in Alberta. In the Dominion census of 1921, the city's population was placed at 58,821.

The Liver Is the Road to Health

If the liver is right the whole system is better off. Carter's Little Liver Pills awaken your sluggish circulation, give you a healthy appetite, relieve constipation, stomach trouble, indigestion, nervousness, headache, and all the ailments of a sluggish liver. Purely vegetable. You need them.

E. P. Ranch Improving Western Stock

(Top)—The Prince of Wales' best grass cutters are here seen at work on his ranch at High River, Alta. They are a famous herd and include many prize winners.
(Left)—"Will Sinner," a famous race-horse belonging to His Majesty the King, and loaned to the Prince of Wales, who is keeping him on his ranch at High River to improve the equine stock of Alberta.
(Right)—"King of the Palace"—a scribe and grand champion short horn bull imported and owned by the Prince of Wales and one of the many fine animals on the Prince's Ranch at High River on the Calgary-Lethbridge branch of the Canadian Pacific.

The way to approach the E.P. ranch is from Calgary to High River, 40 miles south, on the Canadian Pacific Railway. From High River one has to drive southwest a distance of 35 miles through one of the richest grain-growing and stock-raising countries in North America. In the distance the jagged peaks of the Rockies dip the clouds and below, well-wooded, are the foothills. The road cuts through the centre of the "Bar-U" ranch and about one mile and a half from the limits of the "Bar-U" the low rambling bungalow where the Prince is now living is seen through a pretty glen. It is a homelike looking place typical of many a rancher's home in "Sunny Alberta." Here his Royal Highness goes "back to the land."

The Prince of Wales has never ceased to exhibit a keen interest in his ranch, and fresh indications are periodically given of the importance he attaches to it and the work it is doing. After purchasing the ranch, and before returning to England, the Prince made arrangements for the shipment of some of the best stock in the British Isles to the Canadian West. Thoroughbred horses came from Royal stall, Shorthorns from the King's farm, Shropshire sheep from the Duke of West-

minster's estate, and hardy Dartmoor ponies from the Devon Moor, a type of animal previously unknown in Canada. From time to time since then fresh additions of the most excellent stock have been made. The work still continues.

In an area such as Western Canada, which has for years devoted itself to the elevation of the quality of livestock and has become internationally famous for the superior type of its horses and cattle, importations must be of an outstanding distinctiveness to be worthy of special note, but this the E.P. Ranch has effected. At Alberta provincial exhibitions the animals from High River are attractive features.

In its brief history, the E.P. Ranch has come to play an important part in the Western Canadian live-stock industry, and it has done not a little in its development of a more sympathetic understanding for Canadian agriculture in the British Isles. Its establishment was an indication of the importance attached to agriculture in the Dominion of the Empire its continuance and promotion an encouragement to the western live-stock industry, faith in the future, and a stimulus to the attainment of perfection in breeding.

Historic Site at Friendly Cove, B.C.

The historic past of the Nootka section of the West Coast was recalled recently when Lieutenant-Governor Walter C. Nichol, of British Columbia, unveiled and dedicated a monument commemorating the explorations of those great English navigators, Captain Cook and Captain Vancouver.

The monument was built under the auspices of the Historic Sites and Monuments Board of Canada which is placing similar memorials across the Dominion on sites hallowed by interesting chapters of Canadian history.

A large party travelled on the Canadian Pacific S.S. Princess Maquima for the ceremony and left the steamer at the cannery wharf, loading launches for the short run to Friendly Cove. The party included Lieutenant-Governor Nichol, H. J. S. Musket, his secretary, Judge Howay and Mr. Forsyth, Dr. C. S. Newcombe, the well-known historical authority who wrote the "Circumnavigation of Vancouver Island," Prof. W. N. Sage of the University of British Columbia, Mrs. R. H. Macmillan, representing the I.O.D.E., Mrs. and Miss Howay, Thomas Deary, late Indian agent for the Queen Charlotte agency and a pioneer of 1859, Dr. David Donald, Mrs. Cave-Browne-Cave, and Professor Macmillan Brown, chancellor of the University of New Zealand. Dr. Macmillan Brown is one of the leading ethnologists of the Pacific, and has been spending the summer on the coast investigating the Indians and their customs.

The new monument is seven feet broad by eleven feet high, with a standard size bronze tablet bearing the following inscription:
"Nootka Sound discovered by Capt. Cook, in March, 1776. In June, 1789, Spain took possession and established and maintained a settlement until 1795. The capture of British vessels in 1795 almost led to war, which was avoided by the Nootka Convention, 1790. Vancouver and Quadra met here in August, 1792, to determine the land to be restored under the convention."

A feature of the entertainment provided those who took part in the unveiling ceremony was the Indian dancing, arranged by aborigines from Clayquot Sound, the Wicwitsan of the early navigators' journals. Festive plans are afoot for an elaborate pageant to be held at Friendly Cove, Nootka Island, in four years time to celebrate the 150th anniversary of events commemorated by the unveiling of the cairn.

The Empire Medicine

the preparation which has won the confidence of every country under the British flag—the remedy which has brought health and happiness to millions of men and women in every part of the Empire—the treatment which is resorted to everywhere for ailments such as Sick Headache, Biliousness, Indigestion, and Constipation, often considered insignificant, yet decidedly inconvenient ailments which have their origin in a dyspeptic condition of the stomach and a torpid action of the liver—

Beecham's Pills

WORLD HAPPENINGS BRIEFLY TOLD

Eighty-four thousand lives were lost in the United States last year as the result of accidents. The death toll amounted to 1,362 per week, or 209 a day.

The net debt of Canada dropped \$2,110,785 during September and now stands at \$35,060,351. In September, 1922, the debt showed a decrease of \$5,241,512.

Princess Mary's second child was christened in St. Mary's Church, Goldsborough, Eng., Oct. 4. The ceremony was in private, and the child was given the name of "Gerald David." Work on the construction of the gigantic flour mills to be built in Calgary by Spillers' Overseas Investments, Limited, has already commenced. The new mill will be the second largest in Canada.

The liner Empress of Canada, which docked at Victoria, B.C., from the Orient, brought 166 Russian refugees from Harbin, who were going through to the irrigated area in Southern Alberta to engage in farming.

M. T. Thilne, for 10 years Superintendent of the Experimental Farm at Scott, Sask., has been appointed Superintendent of the Experimental Farm at Brandon, to succeed W. C. McKillop, newly-appointed Dean of the Manitoba Agricultural College.

Another Arctic expedition, this time all French and headed by Jules De Payer, is to start for the polar region at the end of next March, according to Le Journal. The party will proceed in a specially equipped vessel to the Fram Joseph archipelago, whence an attempt will be made to fly across the North Pole.

Fall and Winter Fashion Book Sent Free

Combining the arts of Paris, the world's centre of fashion, with the ingenuity of New York workmanship, there is shown and illustrated some beautiful creations in the new fall and winter fashion books, issued by the Halls Mall Order Corporation, Toronto. Every conceivable design is shown in fur coats, featuring exquisite linings and the new crush collar, as well as cloth coats in a wealth of smart fabrics and styles, with and without fur trimmings. Also dresses, millinery and sweaters, at most attractive prices. Drop a card today to the Halls Mall Order Corporation, Ltd., 598 Halls Mall Building, Toronto, and receive without charge or obligation the new fall and winter catalogue. You will most certainly be interested in studying the new styles shown in this book exclusively.

New Aerial Base

The establishment of a new aerial base at Forest Island, north of Norway House, for the purpose of extending still further the limits of territory patrolled by the air patrol for fire protection in Manitoba, has been authorized and the buildings are already under construction. The value of the air patrol has proved itself, and will probably be extended next year, according to D. A. Macdonald, Assistant District Forest Inspector, who visited Norway House recently.

The Poor Man's Friend—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Wembley Loss Reported Four Million Pounds

Not Much Chance Of Opening Fair Next Year
The Sunday Express asserts that the loss sustained by the guarantors of the Wembley Exhibition is at least £4,000,000.

The question of re-opening the fair again next year, says the Express, is still in the balance, but now that Canada has withdrawn from the project and the other dominions are doubtful of success, the policy of throwing in more millions in the hope of recovering the vast losses lacks essential support.
The Express also recalls that J. H. Thomas, Colonial Secretary, when asking Parliament for an increase of the Government guarantee for the exhibition, ventured to assert that "not one copy of the insurance guarantee" would be required.

Butterfat Production Of Alberta
The butterfat production of Alberta for the seven months ending July 31st shows an increase of over twenty per cent, the total output for the period being 8,940,975 pounds as against 7,443,767 in the same period in 1921.

For Corns and Warts—Minard's Liniment

World's Largest And Strongest Vank

London Bank Has Installed Thief-Proof Safe

Installed in the new headquarters of the Westminster Bank, Ltd., London, E.C., is a set of strong rooms which is the largest in the world and guaranteed to defy the hand and brain of the cleverest thief.

It has taken two years to build, has two stories, and goes down 25 feet below street level. The walls, nearly 3 feet thick, are of finest blue-brick faced with reinforced concrete and lined with steel slabs warranted to resist the hottest flame of the oxy-acetylene blow pipe.

Three hundred tons of steel have been used in the construction of the rooms, the floors, ceiling and pillars of which are all steel. Each of the four main doors weighs more than 5 tons, but they are so beautifully lined that when free they can be moved with one hand. The bolting mechanism, worked by wheels of steering-gear pattern, is controlled by a series of locks of unique design. The doors are also provided with a special safeguard in case of explosives being used in an attack on them.

The largest of the four rooms is 70 feet long. Many cartloads of bullion and specie can be stored there—tons of money and hundreds of weights of securities.

And within these triply guarded walls of brick, steel and cement, about 40 large safes will rest secure from unlawful disturbance.

"DIAMOND DYE" IT

A BEAUTIFUL COLOR

Perfect home dyeing and tinting guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, wools, dresses, coats, stockings, sweaters, despoiled coverings, hangings, everything new.

Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

China's Burial Grounds

The burial grounds of China have always been held sacred, not to be disturbed under any circumstances. The result is that one-twentieth of the country is now occupied by graves. The problem is assuming serious proportions.—Dearborn Independent.

MRS. ROSE PETERS

Toronto Woman Advises Young Mothers!

"Toronto, Ont.—During all my year of wifehood and motherhood I have had much great comfort from the use of Dr. Pierce's Favorite Prescription that I do not hesitate to recommend it to other women who need strength and help during expectancy. Favorite Prescription relieved me of all nausea or sick stomach, and kept me strong. I took this splendid tonic as a service during each of my four expectant periods and I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from the first moment."—Mrs. Rose Peters, No. 25, Blackville Street.

Health is most important to every woman. It is the foundation of all happiness in your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeport, Ont. Send 10 cents when you wish a trial package.

Insist on BAYER TABLETS OF ASPIRIN

Unless you see the "Bayer Cross" on tablets you are not getting the genuine Bayer product proved safe by millions and prescribed by physicians 24 years for

Colds Headache
Pain Neuralgia
Toothache Lumbago
Neuritis Rheumatism

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists, Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monocrotic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacturers, to assist the public against imitations, the Tablets of Bayer Company will be stamped with that greatest trade mark, the "Bayer Cross."

SUNDAY SCHOOL LESSON

OCTOBER 19

THE PARABLE OF THE SOWER

Golden Text: The sower soweth the word. Mark 4:14.

Lesson: Mark 4:1-20.

Devotional Reading: Psalm 1.

The Text Explained and Illumined
The Parable of the Sower: A Study in Solz, verses 1-8. Sitting in a boat on the Sea of Galilee far enough from the multitude on the shore to be free from their importunities, yet near enough to address them, Jesus taught them many things by means of parables. The Greek verb from which the word "parable" is derived means literally to place side by side, hence to compare; a parable is a comparison. Webster defines a parable as a short fictitious narrative of something which might really occur in life or nature, by means of which a moral is drawn. An excellent definition of a parable as used by Jesus has thus been given: narrative, fictitious, but agreeable to the laws and usages of human life, by which either the duties of men or the things of God, particularly the nature and history of God's kingdom, are figuratively portrayed. Within the view of Jesus as he spoke this Parable of the Sower was doubtless a sower at work in a sown field which descended to the water's edge. Dean Stanley describes such a field: "There was the trodden pathway running through the midst of it, with no fence or hedge to prevent the seed from falling here or there on either side of it or upon itself hard with the constant tramp of horse, mule and human feet. There was the good rich soil; there was the rocky ground of the hillside protruding here and there through the cornfield; there were the large bushes of thorn—the mark, that kind of which tradition says the crown of thorns was woven—springing up in the very midst of the waving wheat."

American Rye In Europe

An estimated rye shortage of 130,000,000 bushels in Europe this season has resulted in an enormous demand for American rye.

It is estimated that sales to Southern European countries in the last week alone have been in excess of 10,000,000 bushels. Prices have advanced 8 cents a bushel and are now only 25 cents under the level of wheat, whereas a short time ago the difference was 40 cents.

Sleep is the great nourisher of infants, and without peaceful sleep the child will not thrive. This cannot be got if the infant be troubled with worms. Miller's Worm Powders will destroy worms and drive them from the system, and afterwards the child's rest will be undisturbed. The powders cannot injure the most delicate baby, and there is nothing so effective for restoring the health of a worm-torn infant.

Five tons of fish, preserved by carbon dioxide instead of ice, were shipped from Nova Scotia to Montreal, a three-day journey.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

Orange and lemon juice stands now occupy hundreds of old saloons in New York. As most of the lemons run for twenty-one years, it does not look as though the orange drink companies anticipate the return of beer.

Stony Plain and District.

Officer Smith made a business trip to Drayton Valley over the week-end.

Mrs. Nick Bauer was operated on in an Edmonton hospital for kidney trouble.

Mr. August Kreye underwent an operation yesterday for appendicitis in Misericordia hospital.

Mr. M. Kotscherolsky Sr., who has been in the Edmonton General hospital for some time, is reported to be in a very low condition at present.

The local Dramatic Society is preparing a big surprise for the theatre-going public. Further particulars next week.

A provincial convention of Liberals will be held in Calgary November 27. Mr. R. L. Ghiselin is arranging to hold a meeting in this district to elect some ten delegates to be in Calgary at that time.

The prize of a brand new suit of G. W. G. Overalls offered by Kelly's Dept. Store to the farmer marketing the first load of this year's No. 1 wheat was won by Mr. Geo. Ducholke.

At the local Court Tuesday the four youths from Duffield who had broken into Faulk's store were present with their parents. After the hearing of the case, the latter were bound over in the sum of \$100 that the youths will not be delinquent within the period of one year.

The card party held Friday night last by the local Women's Institute was a very successful affair, a large number being in attendance and played Five Hundred until midnight. An admission fee was charged, and a nice sum was raised for the funds of the Institute.

Fred Dorenbusch is said to have sold his threshing outfit to L. M. Enders of Blueberry district.

Threshing is again in progress at Garden Valley, with Mr. Louie Gabel leading the procession with his big threshing outfit. This is Louie's 21st threshing season, so he says; but the story takes a lot of believing, judging by Louie's still very young looks.

The Greenfield Government will not put up a candidate for election in the Edmonton constituency made vacant by the resignation of Mr. Boyle.

The organisation of the Provincial Livestock Pool was completed at a meeting held in Edmonton on Tuesday.

The potato crop throughout Central Alberta will not average as high as last year; the yields being about 20 p.c. less than in 1923.

Kraft MacLaren Cheese Co. Ltd., Montreal, have prepared a very attractive booklet "Cheese and Ways to Serve It." The booklet is replete with information as to the value of cheese as food and contains recipes that any housewife will be sure to appreciate. A copy may be obtained free by addressing a request to Kraft MacLaren Cheese Co., Montreal, and mentioning this paper.

Tires and tubes vulcanised and repaired at Stony Plain Garage.

Body Found in River.

The body of Frank Maynard, the man drowned in the Saskatchewan River on Aug. 10, was discovered on Sunday last by some Indians who were washing for gold. Word was brought to Duffield Monday, when Mr. Faulk notified the police. Officer Smith was on the job, and went out to where the body was, on the south bank of the river. Coroner Oatway was notified, but did not deem an inquest was necessary. The unfortunate man was in the employ of the Fraser Lumber Co. in logging on the river, and was thrown into the water when the skiff containing deceased and four other men capsized. All secured logs and dragged themselves up, but the one on which Maynard attempted to climb was seen to roll over, and the man was seen no more. His drowning was reported to the police by his raft-mates at the time of the accident.

The corpse was taken care of by the officials of Pioneer Municipal District, in whose precinct the remains had been found.

The Church v. Amusements.

Stony Plain High's Literary Society held its regular meeting on Friday afternoon, which included a debate on "The Duty of the Church to Provide Amusements."

The affirmative was taken by Mr. T. Johnson, who gave a comprehensive review of the subject from his point of view.

The negative side was presented in a paper by Herman Loeblich, which in part reads:

"It is with some hesitation I undertake to handle, even in a small way, such a heavy subject, and one which is said to have caused no end of discussion in Church circles. However, as it appears to me, the aim of the true member of the Church should be to get away for a time from worldly affairs and seek spiritual consolation thru the one ordained to provide it. The Church's mission is, obviously, to the souls of men; and the time given to social companionship in the church must be taken from spiritual communion. A church which busies itself in temporal affairs must be a great hindrance to the spiritual advancement of its members. Of the great church leaders of modern times, who ever heard of Calvin, John Knox, or Martin Luther, at the close of a spiritual exhortation arranging for a game of golf with members of their flocks, or the sainted mother of John and Charles Wesley giving a euchre party at their home? The church which does not offer to its members a better alleviation than simple amusement from their toil and sorrow, has missed its mission. Time and again the Church has attempted to serve both God and the world, with results which always left much to be desired."

The next meeting of the Lit. Soc. is set for Nov. 7, with the subject for debate yet to be chosen.

IS YOUNGEST OFFICIAL OF CANADIAN PACIFIC

LEO SOLLOWAY

Leo Solloway, recently appointed Assistant Freight Agent of the Canadian Pacific Railway with office at Montreal and supervision over Ontario and Australian traffic via Pacific Ports.

Born in Vancouver in 1895, Mr. Solloway has the distinction now of being the youngest official in Canadian Pacific service, a distinction which he has won through fourteen years' service in the freight department of the Company. He commenced work as stenographer in the steamship department of the General Freight office in Vancouver in 1910, and remained in that department until 1915 when he enlisted for active service with the 72nd Highlanders. He returned from overseas in the Fall of 1917 and was attached to the steamship export department in Vancouver until 1918 when he was loaned to the British Ministry of Shipping, acting as assistant to the agent of the Ministry at the Pacific ports.

In June 1919, Mr. Solloway went to Montreal as chief clerk to the Asiatic Freight Agent. Two years later he was appointed chief clerk to the General Foreign Freight Agent, and last May appointed as Acting Asiatic Freight Agent which office has been continued by promulgation.

Stony Plain and District

Mr. Vic Robbins, the well-known expert mechanic of Edmonton, is now in the employ of the Stony Plain Garage, and will be pleased to have all his old as well as new customers call on him for their expert work on any make of car or tractor.

St. Matthew's Young People's Society gave Mr. H. J. Boettcher a surprise party on Monday evening, the 19th, it being the anniversary of his natal day. About 30 were present, and a move was made to the local schoolhouse, where a good time was enjoyed by all.

At the big doings at Holborn Hall on Oct. 24, 50c will be charged for the concert, children 25c, plus war tax; and \$1 a couple for the dance plus war tax.
